## **Current Challenges**

Limited resources for UA

Lack of specific policy support

Ecosystem

### Current Challenges - Ecosystem for user experiences

### ccNSO and Universal Acceptance

- Limited resources for UA
  - The ccNSO should organize session(s) on UA readiness and practices for and by ccTLDs at Tech Day or ccNSO meetings
- Lack of specific policies to support UA-readiness
  - The ccNSO should encourage ccTLDs to raise awareness about the importance and need for UA readiness among newcomers
- Ecosystem
- The ccNSO, in collaboration with UASG, should encourage ccTLDs to reach out to social media sites and platforms (FB, Line, Linked-in), ensuring support urls and emails in local languages
